

ANDREW RANDLE

Cost Consultant Vice President

Summary

Andrew joined Thornton Tomasetti in 2024 and works in our forensics practice. He brings over 30 years of experience in building materials, distribution, contracting, and construction. During his 19 years in building materials, he was exposed to drywall products and systems, acoustical ceiling tile, lumber, engineered wood trusses, rebar, EIFS, millwork and windows. For the past 10 years, Andrew worked for a concrete shell contractor building low to mid-rise multifamily projects in South Florida. Roles included executive management, cost estimating, risk assessment, quality control, contract review, litigation support, and project management. He has estimated more than \$1,000,000,000 in project value that resulted in 24 projects built ranging in value from \$2,000,000 to \$28,000,000 delivering more than 5,000 apartment units. Typical components estimated for the projects included material, labor, duration, and equipment.
